

SEKO TUNNELBANAN
den kämpande fackföreningen

Stockholm 2026-05-27

Seko Tunnelbanan, Klubb 111 the union for the workers in Stockholm ´s metro (underground) in Sweden expresses our solidarity with the working class of Portugal, the public and private sector trade unions, and the CGTP-IN, which on June 3rd take part in a general strike against the country's government's new anti-labour "package".

The so-called "labour package" provides for easier and cheaper dismissals, the extension and greater flexibility of working hours, an attack on wages and income, the abolition of holiday bonuses, new restrictions on Collective Bargaining Agreements, and an attack on the right to strike as well as other trade union rights.

Meanwhile in Portugal and all countries in Europe, including Sweden, the people are paying high prices for basic goods, fuel, and rent, with frozen wages and cuts to Health, Education, and Social Security, while billions are being given for armaments, military missions, and the imperialistic wars.

Our union is on your side!

All for one and one for all!

Strength to the workers of Portugal!

Long live the internationalist solidarity of the working class!

Seko Tunnelbanan
